Sakhile zest for life is a natural health care centre. We use natural medication that has been approved by the SABS. The organisation has physiologists, natural doctors, colon hydro therapists, iridologists, herbalisms, dieticians all associated with organic food supplementation and natural methods to cure the cause of a curable ailment and not the symptom. If ailment is not curable we assist you to be the controller of the ailment and not to be controlled by it. All of this is done under natural medication, supplements and methods
